

DOLLAR BILL IS RAISED TO A TEN

Local Dealer Had It In His Possession Several Days Before Discovery Was Made

One of the cleverest pieces of work in way of raising denomination of dollar bill is in evidence here, the bill having been passed at the harness store of George W. Pickels, Second street. The bill, as it was presented, resembled a ten dollar bill so much that it was some time afterwards, in fact, two days after having been received, when the artistic work was discovered.

The bill, which is a one-dollar bill, is still in the hands of Mr. Pickels, and was presented by a man who had some harness repair work done, and the harness dealer is of belief that he knows the identity of the man who presented it. The work is very good, considered so by bank officials, who have had considerable experience, and federal service men who made a special examination of latest bill to be passed here. The letters, "ONE," are covered with a small strip of paper, bearing the letters, "TEN," and fit into place so neatly that they would not be noticed by the casual observer. The figures are also covered and others pasted over them, giving the bill the appearance of a genuine bill of the greater denomination. This is the first of its kind appearing in Richmond for years. It is said by bankers that a few years ago there were a number of bills presented here, but the workmanship on them was not as clever as that presented by this bill. It is not believed that there are any of them here or that there has been any attempt to pass them here, intentionally. One banker stated that it was his opinion the work had been done in some city and that the bill might have passed through the hands of many men before it was discovered to be a raised bill.

SUMMARY VENGEANCE BY MINNESOTA MOB

Duluth, Minn., June 16—Virtually normal conditions prevailed here today where a mob of 5,000 last night overrode the police, and took three negroes from the jail and lynched them after a white girl had been attacked. Two companies of the Minnesota National Guardsmen, however, arrived early today, prepared to patrol the streets if necessary.

Four District Court Judges today signed an order convening a special grand jury tomorrow to investigate the lynchings. As the day wore on the town continued to be quiet with the probability that National Guardsmen will leave by night.

Get Booze In Raid

Louisville, Ky., June 16—Prohibition officers today raided Whitmore Park, a roadhouse near Louisville, and confiscated more than 60 quarts of Whisky, brandy and wine.

WESTERN HARVEST ALREADY UNDER WAY

Oklahoma City, Okla., June 16.—The song of the mower and the header is being heard throughout the southwest and under the hot June sun the army of harvesters is "knee deep" gathering the 1920 crops.

Like a great wave, the horde of harvesters that has come from all parts of the country to garner Oklahoma's grain will sweep northward as the fields turn golden and are ready for the sickle. Cutting already is in progress in the southern fringe of Kansas and the season will be in full swing in that state by June 20, according to federal and state agricultural authorities.

Oklahoma wheat went into the harvest with the condition estimated by the state and federal co-operative crop reporting service at 83 per cent of normal. It was expected at that time that 35,000,000 bushels of grain would be harvested, as compared to an estimate of 27,000,000 bushels a month previous.

Adair Man Pardoned

Frankfort, Ky., June 16—On a statement of Circuit Judge J. C. Carter, who tried the case, that he was surprised when the prisoner was convicted, Gov. Morrow Tuesday pardoned Mackey Hays Keltner, convicted in Adair county of detaining a woman against her will and sent to the reformatory in 1918, to serve a term of two to seven years.

Weather For Kentucky

Partly cloudy tonight and Thursday; probably local thunder showers; not quite so warm.

HARDING SENDS LETTER TO WOOD

(By Associated Press) Washington, June 16—Senator Harding, republican nominee for president, today sent a letter to General Wood, saying "If Wood had won the nomination, Harding would have found great pleasure in conveying to you a very cordial message of felicitation."

"I know we both are interested," the letter added, "in the same great good to our common country, and I feel confident you are very deeply interested in bringing about the restoration of the republican party administration and the return to constitutional methods of government."

Senator Stanley, of Kentucky, was among Harding's callers today. Harding announced today he had a general discussion of his campaign last night at a dinner with Republican leaders, including Lodge, Smoot, Fall and Brandegee. Asked about reports of the peace treaty and the League of Nations and principal topics to be discussed in the speech of acceptance, he said he felt that "public sentiment made the paramount issue, rather than the judgment of any party candidate or party manager."

G. O. P. AID SOCIETY AGAINST GOV. COX

(By Associated Press) Washington, June 16—Prohibition advocates will ask the Democratic National Convention to adopt a plank declaring for rigid enforcement of the 18th amendment and enforcement act, and will "present a solid front against Gov. Cox, of Ohio." Wayne Wheeler, general counsel for the Anti-Saloon League, declared today. Wheeler said Cox is the "last hope of the wets in their progress for nullification."

LOOK FOR MURDER CLUE AT LEXINGTON

(By Associated Press) New York, June 16—Reports from Lexington, Ky., expected here today, may shed new light on the murder of Joseph B. Elwell, sportsman, and whist expert, who was killed in his apartment here several days ago. Detectives have already gone to Lexington, where, it is said, Elwell left suddenly June 1st, as a result of threats on his life by either the father or brother of a prominent girl of that city.

The report that the slayer of Joseph B. Elwell might be found here is not taken seriously. Records of local hotels, where he had a room in May, show on the 28th he left without formally "checking out."

LABORS APPEAL MADE TO CONGRESS

Montreal, Can., June 16—The American Federation of Labor convention today called upon the United States Congress to cancel the "gentlemen's agreement" with Japan, and absolutely to exclude Japanese and Asiatic immigration into this country. The international unions were instructed to "press this legislation declaring a band of irresponsible agitators was attempting to discredit" the recognized railway organizations. The Federation unanimously condemned the "secessionist movement," which resulted in the recent railroad strike.

Germany Sums Up Harding

Berlin, June 16—The Boersen Zeitung editorially says that Germany has nothing to fear from the nomination of Senator Harding, republican candidate for the presidency. It believes the commercial relations between the two countries will be furthered.

CRECELIOUS MAY SUCCEED BOGGS

Richmond City Engineer Tipped For Appointment As Road Commissioner

Reports are current in Lexington and Frankfort that Col. C. F. Crecelious, City Engineer of Richmond, is to be chosen State Highway engineer by the new Highway Commission, to succeed Joe S. Boggs, of Richmond, whose resignation is in the hands of the Governor, to take effect July 1. The selection of Col. Crecelious would undoubtedly give eminent satisfaction to everyone, especially here where his ability has been so well demonstrated. The Lexington Leader had the following in the possible selection of Col. Crecelious:

"A report is current that Major Crecelious, a Kentuckian, will be appointed Road Engineer by the new State Road Commission, and that in due time he will take over the duties now performed by State Road Commissioner Boggs. The Leader could not confirm the report last night since Gov. Morrow and Green Garrett, the member of the State Road Commission from this district, were both in Chicago attending the republican convention, but the rumor that Major Crecelious will be appointed appears to be well founded. Major Crecelious, it is stated, is not only a graduate civil engineer, as required by the new road law of Kentucky, but has had extensive experience in road building. He was engaged for a long time by the United States Government to supervise the construction of roads in Yellowstone Park, and as a Major of Engineers during the late war assisted in repairing and constructing roads in front of Pershing's army in France. The State Road Engineer, it is provided by law, is elected by the Road Commission, a bipartisan body, on recommendation of the Governor and Gov. Morrow, it is averred, is determined that this selection shall be based absolutely on the merit and in conformity with the letter and spirit of the statute."

CLOTHING DESIGNERS MEETING IN CLEVELAND

Cleveland, Ohio, June 16.—Two hundred designers of men's clothing are expected to attend the twenty-first semi-annual convention of the International Association of Clothing Designers opening here June 30. A feature of the convention will be a style forecast. Talented designers are to bring garments made up to express their advanced ideas on style. The garments will be criticized by the style committee as a whole in executive session. From this committee will come a report which will then be discussed in open session of the whole association.

Oregon Against Platform

Portland, Ore., June 16—More than 5,000 signatures were obtained to a petition circulated in Oregon today asking United States Senator Hiram Johnson to repudiate the platform adopted by the Republican National Convention in Chicago, and to announce himself as an independent candidate for the presidency, according to a telegram sent today to Senator Johnson by W. P. Adams, Portland attorney.

Lexington Girl Mentioned

Lexington, Ky., June 16—That Joseph B. Elwell, race horse owner and international card expert, murdered in New York last Monday, paid attentions to a girl named Anna, and that he left Lexington hurriedly at the end of the race meeting here, was established here last night.

Acquaintances told of several engagements with a popular young society girl of Central Kentucky, which culminated in a dinner party the night of May 28. The next day Elwell left his hotel without stopping to check out, and was not seen again in Lexington.

SOME SENSE TO THIS

(By Associated Press) Berlin, June 16—At Halensee, near Berlin, a general store has been opened for a moneyless interchange of country products and town-made articles. Country farmers barter their dairy produce against boots, shoes, cotton, yarn, candles and similar commodities. The accepted unit of value is eggs.

BURGLARS CAUGHT WITH GOODS ON THEM

Richmond Accessory Dealers Planned a Coup When Arrest Occurred Tuesday

Local automobile dealers, especially those dealing in accessories, have been on the lookout for a young man and woman, who, it is claimed, have been operating in this part of the state for some time. They had just prepared themselves for a reception to the couple when the youthful pair of alleged thieves were arrested. Their apprehension occurred Tuesday near Versailles, while en route in a big touring car. It is said their mode of thieving was to enter a store and size up the supplies and, when the opportunity permitted, "lift" accessories and supplies into their car, which was left in front of the place of business, under the pretext that it was out of order. The couple is said to have pulled off a number of thefts in the northern part of the state, and it was when the store of Haynes & Davis, of Ft. Spring, was robbed that the couple erred, for they were traced to the locality where they were arrested soon after the robbery by Chief of Police Dawson and Policemen William C. White and Frank Steele, of Versailles, and placed in the city jail.

A quantity of goods, including articles taken from the Ft. Spring store, were found in the automobile. The list included four new Diamond tires and some inner tubes, a Remington automatic rifle, two raincoats, a woman's suit, a carton filled with canned meats, boxes of cakes and crackers, bottles of Coca-Cola, several dozen packages of cigarettes, boxes of candy and a five-gallon can of oil, bearing a tag with the names of Haynes & Davis on it. A handbag contained articles of jewelry and a large bunch of keys of all sizes, among them 15 or 20 master keys for Yale locks.

The couple gave their names as Eugene Waymier and Evelyn Waymier and said they were husband and wife, and Newport as their home.

SPEEDWELL SCHOOL RECEIVED WEDNESDAY

Tuesday Judge N. B. Turpin, accompanied by County Supt. B. F. Edwards, went to Speedwell, where they inspected and formally received the new school building, which will be used this coming term of school for the first time since the remodeling. The institution will increase the accommodation for pupils in this part of the county. It is reported that the completion of the building was done in a very satisfactory manner. There are a number of school buildings throughout the county being improved during the vacation period. The Speedwell building was begun last year, and while partly completed, school was held, holding up the structural work for some time.

D. of A. Meet In Lexington

Approximately 200 members of the Kentucky State Council, Daughters of America, are in attendance at the eighteenth annual convention, which began a two days' session in Lexington today. All the meetings are executive sessions. One of the features will be the report of the orphans' committee, which will be made on Thursday. The organization is caring for 65 orphans now.

Kentucky ranks second in the United States in membership, with Banner Council No. 7, Louisville, first, among the other councils, having 1,011 members. Ohio ranks first in the number of members.

The Daughters of America is an auxiliary of the Junior Order of United American Mechanics.

MAN "CRACKS" HIS LEG.

BUT SOON REPAIRS IT When William Coates cracked one of his legs Wednesday morning, he did not utter a cry, but seemed out of sorts. He was looking for some nails, a piece of leather and some glue. He said the leg had been giving him trouble for some time, and he was glad it "cracked" at last. "Cork legs are a nuisance," he declared, while mending the member, stating that it was not "wearing" very well, considering the price he paid for it.

RICHMOND BANKS WELL PROTECTED

All Belong To State and National Associations, a Fact Not Generally Known

The banks of Richmond have received their cards announcing the fact that they are henceforth to be protected by the celebrated Pinkerton detective agency, and have been provided with a small metal card upon which the above information is inscribed, and this is attached to the knob of the vault door. This will be the first to greet a possible intruder who, in his wise way, will comprehend the significance of it. He will realize instantly that the noted organization will have men on his trail, and that they never tire of the hunt.

The local banks also have other cards announcing their affiliation with this protective service, just installed. Besides this, there are the national and state protections, since each banking institution is a member of the state and national banking associations. This makes them doubly safe, since these, or one of them at least, employs the famous Burns detective agency in ferreting out criminals who make a specialty of robbing banks.

Kentucky has apparently been the victim of a continued series of bank robberies during the past several months and many of the thieves have been apprehended. Adjoining states have also fallen victims to this class of professional crooks. Several of them are now being held for trial, while a number have been convicted. Dr. Howell, with a number of pals, robbed a number of banks in Ohio, and who was captured in Kentucky some time ago, is now in prison in Canton awaiting trial for murder, which he committed upon being arrested. Howell, who was arrested at Irvine, was brought to Richmond for safekeeping and held for some time until requisition papers were secured.

CLEAN RECORD FOR CITY OF RICHMOND

Richmond restaurants, hotels and other places including stores, meat and fish markets, occupied the attention of a representative of the Kentucky State Board of Health Wednesday, and according to his reports there will be a clean record for the city, since he reported at one of the places recording the close of his canvass that he had "found nothing" and was glad to get out of the city, since he would be able to "make time" or a job like this. He spent some time at restaurants especially, but stated all would be given a good record. This is one of the regular trips made by representatives of the state board and it is seldom that complaints are made. The same condition of affairs are said to exist in the way of fire protection, since an inspector in this line recently spent some time in Richmond, with the result that he also marked his record for the entire city as being good. The representative declared that all necessary precautions were being observed and there were no infractions of the law.

LOCAL SCREEN FAVORITE IS COMING TO RICHMOND

Constance Binney, debutante star of screen and stage, whose first Realart picture, "Erstwhile Susan," created a sensation wherever shown, has just completed her second production, called "The Stolen Kiss," and her many admirers will get another opportunity to see the work of this fascinating star here.

"The Stolen Kiss," as in the case of "Erstwhile Susan," is founded on a successful novel. "Little Miss By-the-Way," Lucille Van Slyke's delightfully whimsical tale of the little "pretender" whose unique ability as a whistler and entertainer is the means whereby she finds love and happiness, has been transferred to the screen with the utmost fidelity. Those who have read the book are promised a revelation in the director's ability to retain the actual flavor of the original tale.

EXAMINATION FOR TEACHERS

With the rush of students to Eastern Normal, it is expected there will be a greater number than usual to take the examination for teachers the last of the week. Many of the newcomers are experienced instructors, but, while most of them are employed all are anxious, it is said, to try the examinations. Plans for the meeting are being completed. The examination will be conducted at the Eastern Normal, as usual.

THE MARKETS

Louisville, June 16—Cattle 300, 25c and 50c lower; tops \$13; hogs 2,000; active and unchanged; sheep 5,200; steady and unchanged; lambs \$16.50 and \$17.

D. B. WALKER DIES IN CALIFORNIA

News of the death at Long Beach, Cal., of Daniel Bates Walker, at the age of 77 years, after an illness of six weeks, is announced from the western city. Mr. Walker, who was born in Madison county, lived most of his life here and was widely and favorably known. He is survived by a daughter, Mrs. Fox, and four sons, Dr. Wade, David, James and March Walker, of Wichita, Texas.

Mrs. Fox, the daughter, was with him at the time of his death, she having been called west from her home in Wichita Falls, Texas, where Mr. Walker moved from Madison county in 1897. The Long Beach (Cal.) Press has the following regarding his death:

"Daniel Bates Walker, aged 77, whose home has been at 1437 East Second street since last November, died in this city after a six weeks' illness. He was born in Kentucky in 1843 and was connected with many of the prominent old families of Central Kentucky. He was a staunch Democrat and southern gentleman of the old school. With his wife and a daughter, Mrs. W. B. Sheppard, he came here last fall from Wichita Falls, Texas, where he had resided for 23 years. He was father of five sons—four are business men of Wichita Falls, Texas, and one at Claude, Texas. His eldest daughter, Mrs. R. P. Fox, has been with him for the past month.

He had been a member of the Presbyterian church for thirty years. Funeral service will be held at Mottel chapel at 10 o'clock Thursday morning, and burial made at Sunny-side cemetery.

REMOVE SOUR DOCK; SAVE THE BLUEGRASS

Now is the time to remove all weeds, particularly the sour dock, from bluegrass fields that are going to be kept for this season. It is much easier to remove these weeds before stripping the bluegrass than it is to remove other seed after it becomes mixed with bluegrass seed. Approximately 76 per cent of all samples received at the Experiment Station, in Lexington, in 1919-1920 showed contamination from sour dock. This is a very high percentage and if the farmers of the central bluegrass expect their bluegrass seed to compete with that from other states like Missouri, they should make every possible effort to have the seed free from sour dock. In some cases the percentage of sour dock in samples was so high that it did not meet with the requirements of the Kentucky seed law.

ONE WINNING DAY IN TWO YEARS, SAYS LYNCH

(By Associated Press) Louisville, Ky., June 16.—"I had only one winning day in two years," said Irvin C. Lynch. "I have been betting on horse races." Lynch is charged with embezzling \$15,000 from the Standard Oil Company, according to the Post. The paper quoted him as saying, "I started playing the ponies derby day in 1918." His winning day was at Lexington, when he won \$475.

Mrs. Thomason Elopes With Another Man

Lexington, Ky., June 16—Mrs. Susan B. Thomason, under indictment by the Fayette grand jury for alleged conspiracy to murder her husband, J. S. Thomason, was married Thursday in Newport to Joseph Warren, of Lexington, it became known today.

She is out on \$5,000 bond. Thomason, a traveling salesman, was shot by James Welch, farmer, December 24, last, who is now in the Fayette county jail, having been sentenced to life imprisonment in the April circuit court.

Mrs. Warren admitted she was married, but refused to state the occupation of her husband. She said they were accompanied to Newport by her sister, Mrs. W. R. Harker.

Her case Monday was continued from the term of court next week to the September criminal term to permit a ruling on the motion of Welch for a new trial, now before the Court of Appeals at Frankfort.

ARTIST IN MUSIC; ALSO THEATRICALS

Young Woman of Richmond Given High Praise Through the Daily Press

Miss Lillian Smith, charming and accomplished daughter of Prof. G. D. Smith, of the department of science at Eastern Normal, who is at the head of the music department of the city high school at Harlan, is recognized here as a finished musician. However, it develops she is considerably more than that. The truth has permeated through a demonstration of the "Power of the Press," for she is credited with theatrical ability quite out of the ordinary.

Miss Smith returned recently from Harlan, after her work for the term. However, it was left to the Daily Enterprise there to divulge her additional talent, for it says some very nice things about her both as teacher and musician. Miss Smith previous to the closing of the school took an active part in the theatricals and personally handled the entire cast of fifty people in a manner that caused her to be given credit for presenting the "biggest musical entertainment ever given there. Miss Smith had charge of the management from the training of the participants in their respective roles to the presentation of the most particular parts, a task that not only requires much versatility, but an extensive knowledge of stage effects, something with which the average musician is ignorant of. The extraordinary success attending her efforts, while tardy in reaching "home," will be none the less appreciated by her many friends. So, as well as being recognized as an artist in her chosen field, she must be credited with unusual theatrical talent, a keen observer, a close student and a demonstrator and originator of ideas quite in keeping with the progressive stage spirit of today, which is saying a great deal.

CITIZENS BANK TO BE REMODELED

The contract for remodeling, improving and enlarging the Citizens National Bank has been awarded to the firm of M. S. Pierce and Son of Danville, and when this work, which will represent a cost of more than \$35,000, is completed the institution will present such a transformation that it will be difficult to be recognized by those out of the city during the time the work is done. The building will be treated to a new front, the interior will be elaborated on, there will be changes in the way of installation of safety deposit boxes, etc. The plans call for a pretentious front which will add greatly to the exterior appearance and a complete transformation of the interior, which will greatly enhance its beauty. The firm is one of the foremost in the county as well as the city and when the contemplated improvements are realized, the bank will be a model one in every particular.

Tax Inspection Finished

Special Tax Examiner Gillfillin, who has been in Richmond for some time looking up records relative to delinquent taxes, has completed his work and returned to Frankfort. He will have but few cases of delinquent taxes to report, it is stated, in Madison county. The conditions here, Mr. Gillfillin stated before departing, were out of the ordinary, and if all records were in as satisfactory shape as in Madison county, he would have an easy time of it.

Most of the cottages at Boonesboro are occupied and will remain so until the arrival of frost, it is claimed. The colony this summer is the largest in years. The number of new cottages constructed some time ago are now occupied by annual visitors who will remain until driven out by cold weather.

Oil substances as inflammable as oily waste and cotton can be ignited by sparks developed from radio telegraphy has been demonstrated by a French scientist.

FIGHT ON PRICES BECOMES PREVALENT

Government Instructor Expected To Visit Richmond Soon and Begin a Crusade

The fight on prices, which is spreading over the country and begun in Richmond recently by a number of merchants making decided decreases in their price lists, has extended to Louisville, where elaborate plans are being made for a period of economy. Miss Florence Rohr, representative of the Department's Division of the Women's Activities of the High Cost of Living Campaign, inaugurated at Washington some time ago, is there and will probably include Richmond in a number of cities to be visited in the near future. There are 20,000 women of Louisville being enlisted to help in the movement which is said to be very effective.

The campaign against high prices, as explained by Miss Rohr, is carried on in co-operation with the United States Treasury's thrift campaign and the home economics movement of the Department of Agriculture.

Moss Rohr is the organizer for the government in all eastern states. She has completed her work in the southern states.

Miss Rohr has a supply of pledge cards which women will be asked to

Famous Gilbert and Sullivan Light Opera, "Pinafore," to Be Given at Chautauqua.

In response to many requests, the Redpath Chautauqua is this year presenting a complete production of the famous Gilbert and Sullivan light opera, "Pinafore." A notable cast, special scenery and costumes and tuneful music, combine to make the Redpath "Pinafore" a grand success.

Three seasons ago the Redpath management presented a complete production of "The Mikado" which was so enthusiastically received that Chautauqua patrons have ever since been asking for another Gilbert and Sullivan opera.

sign. They will involve a promise to practice strict economy in every respect.

The women of the city are taking to the movement and there is widespread interest being shown. Women in smaller cities are invited to ask for information regarding the mode of operations and the intention of as widespread as possible. A number of women in Richmond have already started a little crusade of their own, and are living up to rules governing the indulgence in dainties, etc.

REVEALED GAS MASK SECRET

Two Belgian Women and Their Father Honored for War-time Aid.

London.—Awards have just been made to two Belgian women, Mme. Clement and her sister, Mlle. Marie d'Have, and posthumously to their father, Theophile d'Have, for giving to the Belgian general staff details of the first German gas mask.

Posing as a pro-German, M. d'Have was able to send one of his daughters to Havre, then the Belgian great headquarters, with a design of the mask concealed in her dress. She went by way of Holland and at the Dutch frontier she was searched for four hours in vain. Had the document been found she would have been shot. Altogether Mlle. d'Have crossed the frontier 50 times, until, at the end of 1915, she thought it would be safer to remain in Holland.

So well did the father pose as a pro-German that his neighbors hated him and their behavior to him hastened his death from heart disease. At the time of the armistice a crowd tried to burn down his house.

Hubby Must Pay \$12 and Sleep in Shed

Los Angeles, Cal.—Patrick Corrigan, being sued for divorce by Annie Corrigan, may sleep in the woodshed pending trial of the suit, but not in the house, according to an order by Judge Crail. He must also pay his wife \$12 per week alimony for the support of the couple's three sets of twins.

Mrs. Corrigan objected to his coming into the house at all. "May I sleep in one of the woodsheds, judge?" asked Corrigan. "That's about the only place you can sleep—not the house," said the judge.

SEEK BIGGER GLASS OUTPUT

Manufacturers May Decide to Increase Operating Time for Factories.

Pittsburgh, Pa.—Pronounced scarcity of window glass was given as the cause of a special meeting of the American Window Glass Manufacturers' association for the purpose of deciding whether factories operating in the first period should extend the time of their fire, and whether it would be advisable to advance the time of factories operating in the second period.

Owing to the scarcity of labor, the association several years ago decided to operate one group of factories until some convenient date in May, while the other group was idle, and to start the second group in September, allowing the first to be shut down. This proved satisfactory at the time.

"Holy Ghost" Cult Starving. Durham, Me.—Deserted by their leaders, who have moved to a land of plenty, 500 members of the "Holy Ghost and Us" religious cult were reported to be on the verge of starvation in their colony on the bleak, snow-bound sand hill of Shiloh, just outside Lisbon Falls.

Gathering a Navy of His Own. Shelbyville, Ky.—A man who opened what purported to be a navy recruiting station received 22 recruits and then disappeared, leaving behind many unpaid bills. According to Louisville and Lexington recruiting officials, no such man had authority to seek recruits here.

EXAMINATION PAPERS GRADED AND RETURNED

The grading of the papers incident to the examination for teachers some time ago at Eastern Normal, have been graded and the papers are being returned to County Superintendent B. F. Edwards. A large percentage of them are known to have passed and will be able to report for school work. There were many in the list, however, who did not contemplate teaching school, and several young ones who took the examination for the first time.

WELL AND HAPPY WOMAN, SHE SAYS

Louisville Woman Restored To
Health After Ten Years
Suffering

Mrs. W. P. Carroll, of 428 S. 17th street, Louisville, is still another highly esteemed Kentucky woman whose deep sense of gratitude and a desire to benefit others will not permit her to remain silent regarding the wonderful results she has obtained from the use of Tanlac.

"If it had not been for others allowing the news of their recovery to be published," said Mrs. Carroll, "I could not have known about Tanlac and would still be a sick woman, so I feel like I ought to make a statement myself and try to help some one else."

"For at least ten years and up to the time I took Tanlac I had suffered with indigestion, fermentation of my food and gas on my stomach. At times my heart would palpitate frightfully and during these spells I simply had to fight for breath. Finally I became so weak that it was all I could do to get around and thought I would surely be compelled to take my bed."

"But indigestion is not all Tanlac has relieved me of. I had been suffering with rheumatism in my arms for a year and I couldn't raise my hands above my head or use my arms in any way without just suffering agony. But now I can sweep the floors and do my work without feeling a single rheumatic pain. I am now a well and happy woman and go about my work rejoicing because of what Tanlac has done for me. I have not had a sign of indigestion, gas on my stomach, a spell of palpitation or any of my old troubles since taking Tanlac. Tanlac has not only restored my health, but my husband has also taken it and we are both like new people. It's the first time in ten years that I have enjoyed good health and all the thanks, gratitude and praise belong to Tanlac."

Tanlac is sold in Richmond by Stockton and Son; in College Hill by Ginter Bros.; in Berea by the Welch Department Stores. It is sold in Louisville by the Welch Department Stores.

SOCIAL AND PERSONAL

Beautiful Tea at Yorkick

Quite a number of friends gathered at the attractive home of Mrs. E. T. Burnam at Yorkick Tuesday afternoon in response to an invitation to meet Mr. and Mrs. John Kennedy, of Denver Colorado. Receiving with Mrs. Burnam were Mr. and Mrs. Kennedy, Mrs. John M. Kennedy, Sr., and Miss Willie Kennedy. The affair was very informal and the hospitality of this delightful home was greatly enjoyed.

Mrs. J. M. Riffe spent Monday in Lexington.

Miss Mary Bennett spent Monday in Lexington.

Mr. M. F. Enright spent Saturday in Cincinnati.

Mrs. J. D. Dykes, of Irvine, is visiting Mrs. R. O. Lackey.

Master David Hampton McKinney is with relatives in Winchester.

Mr. C. F. Higgins is at home from Indiana for a visit to his family.

Miss Mary Mason, of Huntsville, is the guest of Mrs. A. T. Chenault.

Mrs. Bolton, of Lexington, is visiting her daughter, Mrs. James Moore.

Mr. Frank Todd has returned from Bluffton, Ga., where he spent the winter.

Dennis Woodson Taylor, Jr., is convalescent from a severe attack of measles.

Mrs. George Thompson, of Ravenna, was a shopper in Richmond on Saturday.

Mrs. T. D. Chenault, Jr., and Mrs. S. M. Sausley spent Monday in Lexington.

Mr. W. S. Broadbuss returned to Hazard Monday after a several days' visit home.

Misses Gladys, Virginia and Hannah Deane are visiting relatives in Owensboro.

Mrs. R. C. Cobb, of Danville, spent Monday with her daughter, Mrs. Charlie Jett.

Dr. C. H. Mainhart has returned from a two weeks' stay at French Lick Springs.

Mrs. Roy C. White and Mr. Harry B. Wilson, of Irvine, were visitors here Saturday.

Mrs. J. M. Warren and daughters left Tuesday to make their home in Chillicothe, Ohio.

Miss Margaret Azbill is the guest of Misses Emma and Anna Williams. Aylesford Place, Lexington.

Mrs. J. S. Baughman and daughter, Miss Eddie Bruce, of Stanford, were recent visitors in Richmond.

Mr. and Mrs. Hubert Griggs, of Louisville, are guests of Mr. and Mrs. W. T. Griggs on Oak street.

Miss Hester Covington is expected home Friday from Cuba, where she has been teaching the past year.

Mr. and Mrs. Louis Neale and children have returned from a visit to Mr. George McRoberts in Danville.

Mrs. Ben Buckner has been spending several days with her father, Mr. W. E. Blanton, and other relatives.

Mr. James Million, wife and daughter, of St. Louis, have been the guests of Mrs. Tom Wilcox, on Third street.

Mr. Henry D. Chenault is expected home from Washington Lee University on Friday to spend the summer.

Mrs. John Shaw is visiting her mother, Mrs. Warford, in Ravenna.

Rev. L. A. Byrd left the first of the week to hold revival services at Morganfield.

Miss Jamie Bronston, of this city, and Miss Ledford, of Paint Lick, left Tuesday for an extended visit to Colorado.

Judge W. R. Shackelford has returned from Nicholasville, where he has been holding court the past week.

Mr. and Mrs. Brutus J. Clay have leased the attractive home of Miss Curaleen Smith for the summer months.

Mr. and Mrs. Burton Roberts and Dr. B. M. Gibson have returned from a ten days' stay at French Lick Springs.

Mrs. Nettie B. Thurman has returned from Hazel Green, where she has been visiting her father and other relatives.

Mrs. L. B. Weisenburg and guests, Mrs. Cown and Mrs. Henry, had a delightful motor trip to Shakertown on Saturday.

Mr. and Mrs. H. D. Parrish and family will leave next week to spend the summer months at Harbor, Mich.

Mrs. Ida H. Culton and daughter have returned to their home at Booneville after a six weeks' stay in Richmond.

Mrs. Jennie A. Hill, who has been the pleasant guest of Mrs. Harvey Chenault, has returned to her home in Pittsburg.

Mr. Everett Winburn and Mr. Curry Rice, of Paris, motored over Sunday and spent the day with relatives and friends.

Mr. and Mrs. Richard Whitlock and children spent Saturday and Sunday with Mr. and Mrs. Pete Whitlock, Jr., near Lexington.

Misses Pearl Hicks, Hazel Albright and Ella Belle Newland, of Brodhead, have entered the Normal for the summer term.

Miss Mildred Beasley, of Lancaster, has entered the Normal for the summer term, and has taken rooms with Mrs. C. F. Higgins.

home from Washington Lee University on Friday to spend the summer.

Mr. and Mrs. Richard Whitlock and children spent Saturday and Sunday with Mr. and Mrs. Pete Whitlock, Jr., near Lexington.

Misses Pearl Hicks, Hazel Albright and Ella Belle Newland, of Brodhead, have entered the Normal for the summer term.

Miss Mildred Beasley, of Lancaster, has entered the Normal for the summer term, and has taken rooms with Mrs. C. F. Higgins.

William Dudley Wagers and David Williams will join the K. M. I. boys at Louisville for a two weeks' camping trip in Michigan.

Mrs. John Tribble and Mr. Uhlman have returned to their home at Red House, after a two weeks' stay in Martinville, Ind.

Mrs. Dan Walker and little daughter are expected from Louisiana to spend the months of July and August with relatives here.

Major Robert Turley and Mrs. Turley write from Panama that they are very greatly pleased with their new quarters, and had a most enjoyable trip.

Mr. and Mrs. B. Z. McKinney entertained at dinner Sunday in honor of Dr. Noel, Huntington, W. Va., the guest of Mr. and Mrs. G. S. McKinney, at Waco.

Mr. T. J. Smith, Jr., of Louisville, arrived Tuesday for a visit to his grandmother, Mrs. James Bennett. His mother, Mrs. Thomas Jefferson Smith, and sister, Elise, will spend the summer abroad.

Mr. H. H. Haynes, of Chicago, who has been spending several days at Maple Lawn, the guest of Mr. and Mrs. M. C. Covington, was suddenly called home by illness of his brother's (Mr. Oliphant Haynes) family.

Mr. and Mrs. John Kennedy, of Denver, Col., who have been spending the past few weeks at Boone Tavern, Berea, will leave for their home the latter part of the week.

Mr. and Mrs. George W. Phelps were in Fayette county Saturday to attend a reception given by Mr. and Mrs. Arch Hamilton at Kirklingerton.

Phew! Dust Everywhere

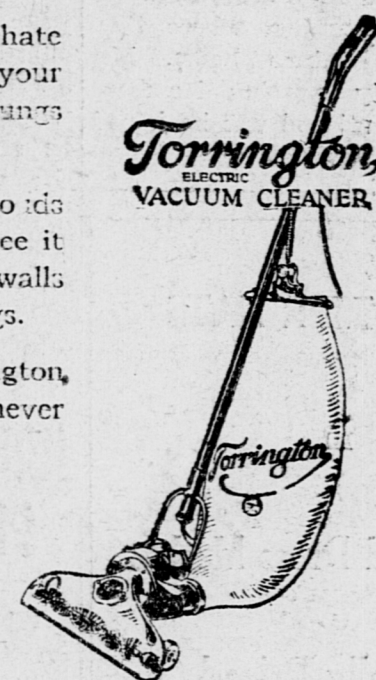

Sweep, sweep, sweep. How you hate it! Your arms ache to the marrow; your back is nearly broken; and your lungs are filled with dust.

Phew! Dust everywhere. What clouds of it the broom does raise! You see it settle on your furniture, dim the walls and woodwork, drift back to the rugs.

Fire that broom. Use a Torrington Electric Vacuum Cleaner. It never raises dust or tires you out.

Let its powerful suction and carpet-sweeper brush do the work for you.

Come in today and learn how to "con" that demon Dust. Price.....

Catarrh is a Real Enemy and Requires Vigorous Treatment

Do Not Neglect It.

When you use sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Get a bottle of S. S. S., and begin a treatment that has been praised by sufferers for half a century.

S. S. S. gets right at the source of Catarrh, and forces from the blood the germs which cause the disease. Special medical advice regarding your own case free. Address Medical Director, 106 Swift Laboratory, Atlanta, Ga.

SPECIAL GEOGRAPHY COURSE

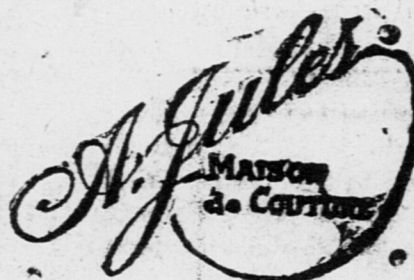

A special feature of the classes for the first week of the summer school at Eastern Normal is the socialized geography, under the supervision of R. P. Green, supervisor of the high schools of the state. This is his first year in educational work, for which he gave up a very lucrative position. He has become so interested in the progress of the education of the state that he decided to devote all his time to it.

Mrs. J. M. Warren and daughters, Misses Sudie and Eula May, departed for Ohio this morning, where they will make their future home. Mr. Warren recently purchased a farm north of Cincinnati and will be joined by his family this week.

SCHOOL SUPERINTENDENT

IS ATTENDING SCHOOL
Superintendent of Schools Dudley Caudin, of Powell county, is not one of those personages who is of the opinion that he is in possession of all the knowledge going, and has come to Eastern Normal to take the special summer school course. He will remain until the close of the short term. He stated today that he felt that it would be very beneficial to him, and he wanted to "go out of studying what he could." He was informed this was the spirit to show, and was welcomed.

WHEAT CUTTING WITHIN ONE WEEK

Alonzo Jennings, living in the southern part of Madison county, while in Richmond Wednesday, stated that Madison county would doubtless lead in the cutting of wheat this year, although this is seldom the case. He declared that the warm weather has caused the grain to begin to turn, and that the golden tinge is approaching rapidly. He predicted that there might be some wheat cut during this week. However, he felt assured that harvest days would be here one week hence. In some localities, it is claimed, the wheat is ripening as never before in this part of the state. The report that the fly was damaging wheat to a considerable extent in this part of Kentucky, is generally denied, Mr. Jennings asserted.

JUDGE PARRISH PUTS WHITE TO WORK

When John White, who is colored, was informed that he was really not guilty of petit larceny Tuesday morning in county court, where Judge S. D. Parrish was presiding in the absence of Judge W. K. Price, he felt jubilant, but this was of short duration. The charge came through the unsatisfactory manner in which White divided bluegrass seed on the farm of Louis Neale, where he had been engaged to gather the seed on the shares.

White is said to have taken decidedly the largest share, hence his apprehension. It was found that, owing to the fact that he had been engaged on the shares, he could not be held for larceny, the act of his "misjudging" the shares, constituting a breach of trust. This seemed to please the prisoner, who had been in jail awaiting trial. The court held, however, that White was cognizant of the fact that he was making an unequal division of the seed, and felt that he was not guilty of larceny, in the eyes of the law, simply because of the law technicality, and decided to send the prisoner to jail. To be specific, he gave White 35 days at hard labor. This was a surprise, since leniency was expected by White.

Judgement for the plaintiff was returned Tuesday in county court in the case of Virgil Miller vs. Mark Fox for forcibly detaining possession of property.

INSECT DAMAGES GRAPES

An insect commonly known as the flea beetle, is doing considerable damage to grapes this season. In some cases the damage is so extreme as to greatly reduce the crop. These insects first eat the leaves and then the young fruit. This can be controlled by spraying with arsenate of lead, using two pounds of powder to fifty gallons of water.

GOOD WORK, MR. HURST

Ben. J. F. Hurst, Richmond contractor and supply man, who is in Big Stone Gap, Va., reports having secured the contract for furnishing supplies or the Stone Gap and Coal company, one of the largest orders landed for some time. The supplies will be for a new waterworks system being installed and will represent a cost of several thousand dollars.

WHY Use YOUR TEAMS FOR HAULING

when they are needed on the farm? We can do your hauling at rates that will surprise you when compared with cost of team hauling. We also store cars in our large, clean Garage at reasonable rates. Special attention given wheat and corn hauling. Let us figure with you. When in town give us a trial.

MARINE WIRELESS MEN

ASK FOR BIG INCREASE

(By Associated Press)
London, June 15—The marine wireless operators today declared a strike which will affect all ports and shipping. The men demand a wage increase of 180 per cent over pre-war rates and better working conditions. It is the first general strike of its kind and may take on an international aspect.

L. H. Crawford, a Kansas rancher, has successfully imported and bred Russian sheep.

EXPLANATION OF CHILD LABOR LAW

There seems to be a misunderstanding of the Kentucky Child Labor Law and its provision relating to the employment of children during vacation.

The following extract from the state law, explains the situation: "If you have your own or any other child between 14 and 16 years of age, working for you at any time of the year, in, or in connection with a factory, mill, workshop, mercantile establishment, theatre, motion picture or in the distribution of messages or the transmission of merchandise without a permit from the superintendent of schools, you are breaking the child labor law."

"If you have your own or any other child working for you who claims to be past 16 years of age and it is proved that such child is not 16, you have broken the child labor law. The child's word, or the parent's, or the child's appearance, is not proof."

There have been no violations reported in Richmond or vicinity and no difficulty has ever been experienced from this source.

IMPORTANT TIPS TO MAKE GARDEN PAY

The farmer's garden should be the richest piece of land on the farm as it is called upon to produce more than any other piece of land. This heavy production can only be secured by having a succession planting of crops, that is, as soon as one crop is matured, plant another one in its place, or very often the second crop can be planted between the rows of the first crop. Beets can be planted between rows of early radishes, sugar corn can be planted in the place of early peas, and such planting of beans can be made at intervals of two or three weeks' time. This will enable the garden to produce its maximum number of crops.

Supervisors Closing Work

The members of the Board of Supervisors report they will finish today hearing complaints of property owners regarding assessments and that the session, which has been an extended and tedious one, will soon be at an end. There have been many complaints made, it is understood owing to alleged increase in valuation of property.

The oldest existing bank note it dated 1399 B. C., and was issued by the Chinese government.

Great Money-Saving Event

Growing larger as we near the close, this is the closing week—Saturday is the closing day. We have saved money for hundreds of customers, why not have us save for you?

You expect us to give you good values at all times; to sell at a narrow margin of profit. We always have. But that's not enough right now. Men want lower prices and we're not going to stop at half way measures to give them what they're after.

Every Hart Schaffner & Marx suit in stock has been marked below present wholesale costs. We've done the same to our stock of Boys' Clothing.

We may lose money on some of these sales, but that can't compare with what we'll gain in your confidence. You'll know that we're looking after your interests, that we're saving money for you. That's what counts right now.

What a lot of argument there used to be about a woman driving an automobile

TODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of *known* value and stick to it.

III

We recommend and sell U. S. Tires because their value is *known*.

There's no guess about it.

It was the U. S. *quality policy* which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the *greatest additions* to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

Select your tires according to the roads they have to travel:
In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.
For front wheels—The U. S. Plain.
For best results—everywhere—U. S. Royal Cords.

REFUSED TO RING THE CITY FIRE BELL

There is one man in the city of Richmond of whom the city firemen will not express their opinion. They assert that while they are temporarily keeping his identity from the public, they may "let it out" at any time. The fellow was standing in

front of the fire department Monday at noon when the alarm of fire came in. He was instructed to go to the courthouse and sound the alarm. This he refused to do. The firemen boarded the truck and were off, short-handed, the machine being in charge of Stone Maupin, Mose Nelson, the regular driver, having gone to dinner. The firemen responded in timely manner and saved a house on Estill avenue. In the meantime, some one realizing that there might be need

of additional firemen, went to the court house and rang the bell.

Maryland Woman Gets Verdict for Bell Ringing and Car Shifting at Night.

Baltimore.—Mrs. Donald L. Symington of the Green Spring valley received a verdict of \$2,750 from a jury in the suit against Walker D. Hines, federal railroad administrator, and the Pennsylvania Railroad company. Mrs. Symington asked for \$25,000.

Mrs. Symington charged that the ringing of a big bell, blowing of engine whistles and shifting of cars kept her family awake. Mrs. Symington also contended that a hedge on her property was destroyed and that a portion of her land was used by the company.

Pig Lived a Month on Snow.
Pierre, S. D.—A pig, on the Burlington ranch, in Hanson county seems to have as many lives as most cats and possibly may be superior in some respects to a whole lot of cats. The pig fell into a well and remained there for 28 days. During this time the owner searched and advertised for the missing porker. It was found by a dog, whose actions attracted a couple of children. Evidently the pig had lived on snow. It was weak, but willing to eat when hoisted from the well, for it had lost about 80 pounds.

FOR RENT—Furnished apartment for the summer. For further particulars call Phone 290. 144 A

Among recently designed beds that also serve other purposes are some that can be converted into double settees, porch swings, window seats or reclining chairs.

Don't Throw Away Your TIRES

They are too expensive. Let me repair them. If it isn't worth repairing I will tell you so. My work is guaranteed. Neglected sand pockets and tread cuts, soon cause fabric separation. Also lets in the water which rots the fabric. Keep your tires up like you do your teeth, and little trouble will not grow into big ones.

SCIENCE PAVES WAY FOR CURE OF CRIMINALITY

Specialist Declares That Most Criminals Are Not Responsible for Acts.

NEED MEDICAL TREATMENT

Connection Is Found Between Mental Irregularities and Blood Disturbances—Rapid Strides in Study of Mental Deficiency.

New York.—The elimination of 99 per cent of the criminality in the United States by proper medical attention given to children is the prediction of Dr. Max G. Schlapp of this city, an expert and specialist in mental deficiency cases and professor of neuropathology at the Post-Graduate hospital.

In an article published in the current issue of the Medical Record Doctor Schlapp goes into detail to show that in most cases of crime the person involved is not responsible for his acts, and moreover abhors the doing of the very things that have caused him to be sent to the state institutions of punishment and reform.

Briefly, Doctor Schlapp declares, there has been discovered a direct connection between mental irregularities and physical disturbances caused by chemical impurities in the blood, and it also has been found that these cases respond to counter-stimulations the principles of which are in certain chemicals and the extracts of animal glands.

"New tests are being tried out constantly," he told a reporter from the New York Tribune, "but it is necessary to conduct exhaustive research before each defective and criminal type can be identified and the correct treatment established."

New Field Opened.
He made it plain that he did not claim a cure-all for mental deficiency or criminality has been found, but his object was rather to state certain observations and conclusions based on the examination of 14,000 cases which open a new field of human abnormality.

"Progress has been accomplished in the clearing house for mental deficiencies at the Post-Graduate hospital," he declared, "to warrant high hopes that the way has been pointed by which society can afford assurance attack in a human and common sense manner the greatest of its problems—criminality."

It is to the end that hospitals may be substituted for prisons and treatment for punishment in the cases of these unfortunate who are not responsible for their acts and who cannot help themselves that this work has been conducted for the last eight years by Doctor Schlapp.

In his article Doctor Schlapp says, in part:

"We still judge criminals and delinquents by their acts alone and to a large extent dispose of them legally on this basis. The general public, and even the courts, believe that a person of normal intellect can control his actions, and consequently that the actions of any person of normal intellect are premeditated, or at least controlled completely by the intellectual mental makeup, and that therefore the person is responsible."

No Question of Altruism.
"In the light of well established facts, known to psychiatrists for the last half century, this method of placing responsibility for criminal acts is basically erroneous and should be revised. We must learn to comprehend many abnormal classes hitherto unrecognized by society as subjects for study, control or aid."

"There is no question of altruism involved; a proper understanding and attitude toward these people who have no innate power of adjustment to their environment will make every home and family more nearly safe."

"You are acquainted—perhaps too well—with the boy who, surrounded by an affectionate family in a home of ease, runs away repeatedly, undergoes unnecessary hardships, and when brought back can never give any explanation for his acts except that he 'just wanted to get away.'"

Juvenile Delinquency.

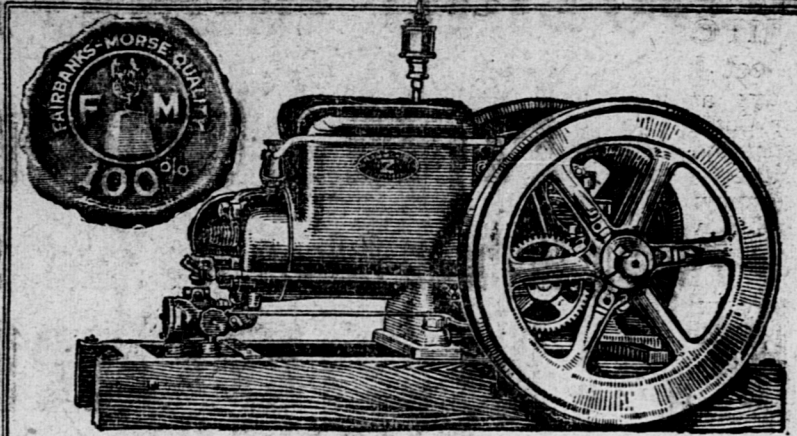

"You doubtless also have come into contact with those other well known types of juvenile delinquency—children who lie and practice petty thievery from their earliest years, later forge checks and generally involve their families in serious situations and in whose genealogical history there is no discernible trace of family propensity for similar actions."

"In another class are the thousands of tramps, possessing what is commonly called an aversion to work, who form an almost alien stratum of society, useless to themselves, and liable at any time to become a menace to the communities through which they pass."

"Still another class is composed of those unfortunate persons who because of abnormal, emotional trends or phobias are forced to commit acts over which they have no intellectual control."

A large amusement company park succeeded in eliminating glare from its concrete sidewalks by spraying them with a mixture of creosote and a dark green mineral dye.

FOR SALE—Hagan gasoline engine; 6 horse power, mill and cutting box; was in perfect repair last time run. M. P. Arbuckle and Son. Phone 119.

Built In Bosch Magneto Insures Hot Spark

"Z" Engine ignition—positive—powerful—perfect—from Bosch high tension oscillating magneto, built into every "Z" Engine, insures hot spark that gives utmost power from fuel. Oscillating type means quick start with little cranking.

Highest grade magneto on the market—every part interchangeable—as accurately made as a fine watch. Its action is positive, its spark is fiery—intense—hot!

All contact parts extra strong—case hardened—wear resisting. This guarantees lifetime ignition-service for the "Z". Perfect ignition gives the "Z" added power—quick starting—smooth, steady operation under all loads.

Come in today and let us tell you about other exclusive "Z" features. For instance: Runs on kerosene, coal oil, tops, as well as gasoline; more than rated power; every part interchangeable; clean-cut, efficient design; long-lived endurance.

ANNUAL ST. JOHN'S DAY PICNIC COMING

The St. John's Day picnic to be held June 24th, at Sigmon's Cave, six miles north of Mt. Vernon, and two miles west of Wilbee, promises to be an enjoyable affair, elaborate preparations being made to have the greatest attendance recorded at this outing for years. The affair this year is being quoted as being a "Genuine old fashioned Masonic Picnic," the kind our fathers and

mothers used to have and all Masons are invited.

The Masons living in Rockcastle county are invited to come and bring their families, and a full basket. The invitations rings with a degree of cordiality characteristic, in adding "come early and stay late. Bring the children and have a good time—if you are single, bring your sweet-heart."

This event, which has been repeated for several years past, is regularly attended by families living far and near, and is looked upon with unusual pleasure by many.

New York, June 15—An "own your own apartment" movement is in full swing here. Two late evidences of its growing strength are the purchase by the tenants for \$2,500,000 of an apartment house on Fifth avenue and the starting of construction on a co-operative apartment on Park avenue,

which is to cost \$4,000,000. Just the other day it was announced that Woodrow Court, an apartment house occupying the entire block front on upper Broadway, between 169th and 170th streets, had been sold for \$600,000 to the 53 families residing in the structure.

SHANKS WON'T GO TO SAN FRANCISCO

So. Jas. B. Parks, of Richmond, Is Full-Fledged Delegate To Convention

Mr. James B. Parks, of Richmond, is going to play a good part in the nomination of the Democratic candidate for the presidency at San Francisco in a week or two. He is now a full fledged delegate to the convention, having been notified by William H. Shanks, of Stanford, this week, that the latter will not attend the convention. Mr. Parks was made alternate delegate to Mr. Shanks at the state convention in May and since Mr. Shanks will not attend the convention, Mr. Parks will now act in his stead.

Mr. Shanks formally notified Mr. Parks that because of important and pressing business, he will be unable to go to San Francisco. He regrets very much being unable to make the trip, which will be a delightful one in every way. Mr. Parks has made all arrangements to go with the other Democrats from Kentucky, as told in another column in this paper. Dr. D. M. Shields, of Spencer county, is the other delegate from the 8th Congressional district.

Mr. Parks is a loyal supporter of Governor James M. Cox, of Ohio, and it was not necessary for ex-Governor Campbell, of Ohio, to write him the strong letter that he did in favor of the nomination of Governor Cox. Mr.

Parkes also is of the opinion that the less the Democratic party has to do with William Jennings Bryan right now, better will be its prospects before the people. He is in favor of "sitting down" on the "peerless leader" at the very first opportunity and his attitude on this matter will undoubtedly please a large majority of the Madison county Democracy.

Ex-Governor Campbell's letter being sent to delegates on behalf of Governor Cox presents unanswerable arguments in favor of the nomination of the man who thrice carried Ohio for the Democratic ticket. He wrote in full as follows:

"I trust that you will not consider this letter as an unwarranted intrusion. My excuse for writing to you is that I am a delegate at large to the San Francisco convention and eager, as you doubtless also are, to nominate a candidate who can be elected.

"Let me introduce myself by stating that I was the Democratic Governor of this state 30 years ago, having defeated the late Senator Joseph B. Foraker, and that I have been on active factor in Ohio politics for more than half a century.

"I have had an intimate acquaintance, since his boyhood, with James M. Cox, our present Governor. Our birthplaces are but four miles apart. I have scanned his private life and public career more vigilantly than that of any other living man, and what I now say to you comes from my heart, as I have for him not only the highest admiration, but also deep personal affection.

"He is in the prime of life, alert, vigorous and incisive, also thoughtful, studious and prudent. In the six years' occupancy of his strenuous office he has met every issue squarely, has evaded a dilemma or acted upon any proposition with a view to its

effect upon his political future.

"He enforces all laws strictly and recognizes no master except the public of Ohio. So honestly, fearlessly and efficiently has he conducted his administration that, in this normally Republican state he thrice has been elected Governor—an honor never before conferred upon a Democrat, and but once upon a Republican who stepped from that office into the White House.

"Having served two terms in Congress, he combines both legislative and executive experience, and with these combined viewpoints doubtless would achieve such measure of harmony between the two branches of Government as would aid in the statutory furtherance of party policy.

"His remarkable success and his unparalleled popularity can be traced to three primary sources:

"1. He passed his youth in the compelling drudgery of the farm and, at the present time, owns and cultivates two large tracts of land. He has an exhaustive practical knowledge of the means by which, through legislation, agricultural production may be fostered and farm life made attractive. Therefore, the farmers believe in him.

"2. He owns and conducts two influential daily papers and is associated financially with other industries. Consequently he is able to deal intelligently with any proposition that

might affect the "business interests" and the business men of the state are his friends.

"3. He acquired every dollar of his property by diligent industry—having been born the typical 'poor boy' of American life—and therefore can dispose of vexatious labor problems not only wisely and justly, but also with that knowledge and sympathy which can be learned only in the "school of hard knocks." The working men realize this and trust him implicitly.

"With this splendid equipment he entered upon office of Governor, and proceeded to apply business methods to public administration. It was his duty, under a recently amended constitution, to inaugurate numerous reforms.

"Ohio, being one of the greatest hives of industry in the world, is subject to all of the disputes which arise in such communities, still, during the entire administration of Governor Cox, not a soldier has been called out—not even in the recent unprecedented situation in the steel and mining

"He brought about bloodless settlements of all disputes because, by his impartiality and sagacity, he has won so completely the confidence of employers and employees that his word practically is a law to both.

"As a war governor he stood in a class almost alone. The able, prompt and patriotic manner in which he met

all war problems so aroused the pride of the public that, in spite of the Republican avalanche which overwhelmed the whole country, and which defeated every other candidate upon our state ticket, he was elected.

"It may be added that Governor Cox is one of the most convincing, interesting and eloquent orators now in public life, and that, as an executive officer, he has few equals and no superiors. He would grace the presidency with dignity and would give the country an administration of the highest character.

"Incidentally it would redound to the glory of the Democratic party. That party must have the electoral vote of Ohio or another great pivotal state. Governor Cox can carry Ohio. What other candidate can match this certainty with even a probability?"

Who Will Be the Husbandman?

Wednesday, June 23rd, 1920; 10:30 A. M.

Some Boaz may catch a Ruth, right here. Some of you old "birds" who have no mate. Get a pretty cage like this; you will get the singing bird.

THE SHELBY JETT FARM

—NOW OWNED BY THE UNDERSIGNED—

308 Acres Fine Blue Grass Land

subdivided into 50 to 200 acre tracts, well improved, gently rolling and up selling without reserve or limit.

LOCATION—Seven miles from Richmond, 2 miles from Kirksville and graded school; on either side of pike; adjoining the lands of Thomas Curtis and other good men, (and these are assets in any community.

IMPROVEMENTS—Handsome two story brick dwelling, must be seen to be appreciated; words will not describe the grandeur of this ideal home and its beautiful surroundings; excellent water system, with gravity pressure, insuring a flow at all times at a minimum or no cost; two garages, 2 stock barns, 3 tobacco barns, 2 silos, 4 small houses, two of which are good ones of 5 rooms each; 180 gallon underground gasoline tank, ice house, etc. Too much improvements? No. not an item out of proportion to this magnificent boundary of land.

We claim and stand for public contradiction that there are no less than \$250 per acre improvements on this 308 acres of land. Don't stand and say no, go see for yourself; place them at their fair value of today; they are absolutely essential, adding both to the comfort and necessities. Then they are an asset to be credited to the cost of the land for if they were not there a liability would be encountered as you would have to have them. Bear these facts in mind and you can readily figure what the land is costing you.

150 Acres Fine Tobacco Land

There is no less than 150 acres finest of tobacco land; 100 acres in old blue grass sod, and sand stone at that. It will pay for itself rented out. Opportunity knocks at the door of the man who can make the first payment; you will not have to bother about credit, it lies in the land and goes with the deed to the party or parties that buy it. Buildings on every tract.

MUSIC BY EXCELLENT BAND.

Any man who has a fond sweet wife who has more than borne her side of ox yoke would love to work and save when a home like this was put ahead. Make your boys your partners if you want them to stay at home and fatten on the gold of life, you must leave the gates ajar, and let them have some of the pickings; your home will be nearer what it should be and they had rather be there than any other place. Practice this and sell your automobile.

Now if any of you good women are affected with any of these husbands who see hard times coming, all the clouds look like a cyclone and lost their silver lining, if any of you ladies have a husband like this, a simple remedy justified by the unwritten law, ask Tony Burnam, or any other lawyer, they will tell you; ask Moss Gibson or any other doctor in Richmond, if this simple remedy would not be the correct course to pursue: Take your hog box filled with 50 pounds of ice, 40 gallons of stagnant pond water, use 1 gallon sheep dip, soak him three days until bugs are removed, then take a small oak board, whip him out of the tub, lay him across a hemp break in the sun, let him dry for six hours, give three dog buttons using skimmed sour milk as a chaser, wrap him in a horse blanket, place him in a 4-year-old straw mattress, use a fly bush made of mullein stalks, see that bed bugs are diligent, have a loaded musket in easy reach of the patient. If he or she should feel like it would add to his or her comfort, see that it is promptly used. And should death ensue, bury him with military honors omitting floral designs except dog fennel blossoms; inscribe on marker "Here rests his head, on the lap of earth, a man to fortune and fame unknown, fair science smiled not on his humble birth and melancholy marks him for her own."

The sale will last but 50 minutes, after which the band will play "Hold That Wood Pile Down."

Terms announced at sale. For further particulars see Covington Jett on the premises, or the undersigned.
